NEW JERSEY DEPARTMENT OF THE TREASURY – DIVISION OF INVESTMENT

DEPUTY DIRECTOR/DEPUTY CHIEF INVESTMENT OFFICER

POSITION SPECIFICATIONS

CLIENT

The New Jersey Department of the Treasury, Division of Investment (the “Division”) was created by statute in 1950 to centralize all functions related to the purchase, sale or exchange of securities for the State’s diverse funds under experienced and professional management. The statute vests investment authority in the Director (i.e., Chief Investment Officer) of the Division, who is appointed by the State Treasurer. The Director exercises this authority subject to the supervision of the State Investment Council (the “Council”) and the Board of Trustees of the Police and Firemen’s Retirement System (PFRS) Board (the “Board”). The Council and the Board formulate policies that govern the methods, practices or procedures for investment, reinvestment, sale or exchange transactions to be followed by the Director of the Division. The Division enjoys a strong working relationship with both the Council and the Board.

The Division is the 40th largest pension fund manager globally as measured by assets under management and the 18th largest among U.S. public and corporate pension fund managers. The Pension Fund supports the retirement plans of approximately 800,000 members in seven public pension systems:

- The Consolidated Police and Firemen’s Pension Fund
- The Judicial Retirement System
- The Police and Firemen’s Retirement System
- The Prison Officers’ Pension Fund
- The Public Employees’ Retirement System
- The State Police Retirement System
- The Teachers’ Pension and Annuity Fund
All seven are collectively referred to as the “Pension Fund”. Approximately 49% of Pension Fund members are still working and contributing to the Pension Fund while 43% are retired. The remaining 8% reflects the number of vested members no longer accruing benefits but not yet retired. Pension Fund assets are primarily managed through common trust funds (“Common Pension Funds”).

The Division also manages the State of New Jersey Cash Management Fund, Supplemental Annuity Collective Trust (a 403b plan) a portion of NJBEST Fund (a 529 college savings plan) as well as several funds under the New Jersey State Employees Deferred Compensation Plan (a 457 plan). Total assets under management by the Division were just over $92 billion as of June 30, 2019.

All investments must conform to the heightened “prudent person” standard set by the New Jersey Legislature. This standard requires the Director “to manage and invest the portfolio solely in the interests of the beneficiaries of the portfolio and for the exclusive purpose of providing financial benefits to the beneficiaries of the portfolio”. The mission of the Division is to achieve the best possible return at an acceptable level of risk utilizing the highest fiduciary standards.

As of October 1, 2019, the target asset allocations for each asset class are as follows:

The Division utilizes its internal resources to minimize costs, with the Pension Fund representing one of the highest percentages of internally managed plans amongst public pension funds. The U.S. Equity portfolio is based upon a passive index-based strategy, while the Division utilizes external investment advisors to provide advice with respect to its high yield, emerging market equities, and small cap international equities portfolios.

The Division is currently undergoing a comprehensive overhaul of its information technology systems, and is in the process of implementing its Environmental, Social and
